

A NATIONAL CALL TO LEADERSHIP

The Governor's Challenge:

A call to all Governors to continue their support of our first responders through special programs to ensure every state is served best by healthy emergency personnel—the *vital human infrastructure of our country*.

- A unifying challenge where everyone wins at the state and national level, demonstrating the power of our Governor leadership.
- A national awareness fund-raising campaign that collectively will make a measurable difference. Programs include unified training and certification of individuals to answer crisis hotline calls as well as address crisis issues at the local department level. *This is a significant employment opportunity;*
- A collaborative campaign supported and promoted by many nonprofits and foundations.
- A positive, promotional opportunity that will be supported by national media, social media and influencers.

The Ask:
Donate \$1
for every
First
Responder
in your
state

90% of every dollar goes to the cause.

Who We Are

First Responder 911 Foundation joins our Governors in supporting the health and wellness of Americas emergency personnel.

- We are focused on addressing the growing statistic where 1 in 3 first responders suffer from job related mental or behavioral health issues. We address the prevention, intervention, treatment and support of First Responders dealing with traumatic issues.
- Our goal is to keep our first responders healthy, strong and responsive to face everyday emergencies.
- We are a foundation built from the strength of our Board and Advisors. We are a collaborative force amongst other non-profits giving us broad national reach and impact.
- We believe a united effort will have the greatest chance of affecting positive change for the wellness of our responders and their families.
- First Responder 911 Foundation embraces innovation exemplified by our mobile application in development. It is a tool for first responders to get help by a simple click on their phone. This unique application will be certified by ATT First Net and link to the 988 National Lifeline, our strategic partners.
